FAQ

Who is the academy for?

We have programmes for cricketers of all ages and skill levels from beginners to current Premier Grade players. Academy training is about developing you as a player to realise your potential.

How is this different to team training?

Academy programmes offer more intensive instruction in all aspects of cricketing skill than can be covered in team training. Key differences of Academy offerings from regular team training are a higher coach to player ratio and periodic guest coaching by elite coaches and players.

Which academy program is best for me?

Our **Development Squad** programmes are designed for players wanting additional training and more specific coaching. Being in a Development Squad increases your rate of improvement and therefore improves your chance of progressing to higher levels of cricket.

Our **Focus Squad** programmes are aimed at more advanced players who want to further refine their skills in a more intensive environment. It's great for players who want to progress to higher levels of Premier Grade cricket, and aspiring or current representative players.

Solo training provides the ultimate in skills instruction in which you receive the full attention of the coach in a one-on-one environment. It's perfect for anyone who wants to accelerate their rate of technical skill acquisition.

Our **Signature** events are intensive training workshops featuring elite guest coaches which focus on specific areas of your game. They're fantastic for getting a rapid injection of focussed insight into your game from those who have been there and done it before.

When do Academy programmes operate?

Development Squads operate weekly for three 8-week terms per year. Focus Squads run for more intensive periods during an 8-week period in Term 2 and during the Spring and Summer school holidays. Solo coaching is available all year. Signature sessions are offered periodically for one and two day intensive workshops over the weekends.
